OWN THE LOWEST MINTAGE PEACE DOLLAR

Imagine holding the lowest mintage Peace dollar in your hand and knowing that you own it. You carefully examine the coin and find a minimum of bagmarks and a lovely strike. Ah, the joys of collecting!

The low mintage and rising price aren't the only advantage of owning an MS-65 1928-P Peace dollar. These coins are accurately graded Mint State 65, what other dealers might call Choice or Gem Uncirculated . . . the condition most in demand! The last time we offered 1928-P Peace dollars in MS-65 we quickly sold out. That's why we suggest you order early.

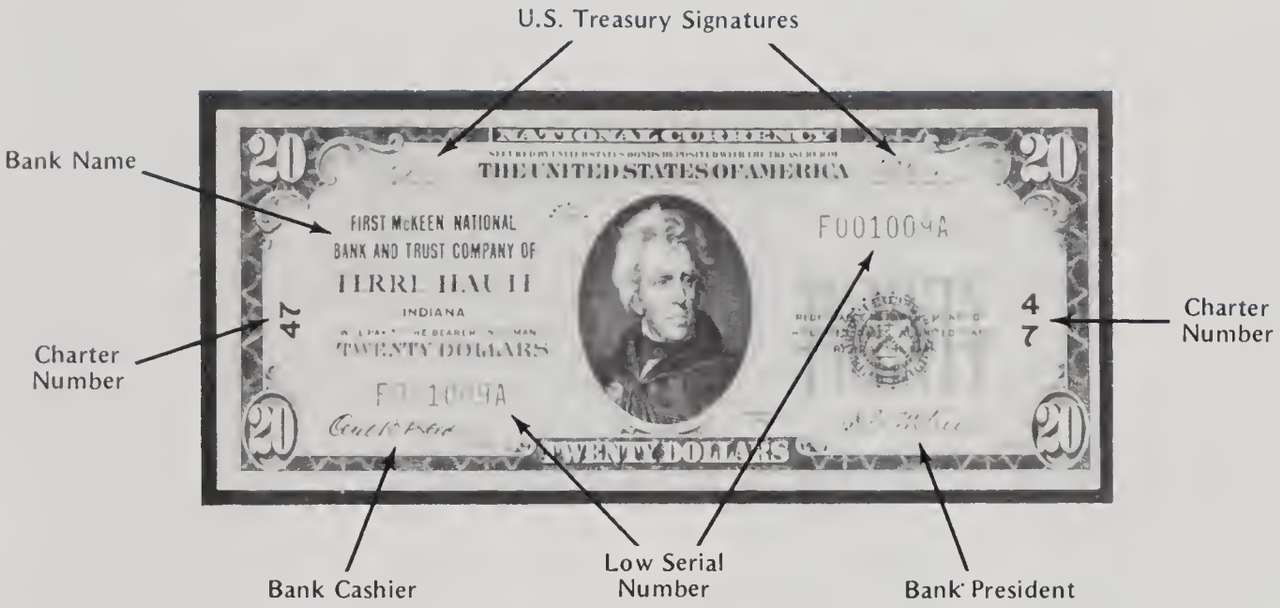
Popular
1929 National Bank Note



Nearly half a century ago, before the Great Depression, Federally chartered banks were permitted to issue their own paper money, guaranteed by the United States Treasury. These notes were similar to regular government issued notes except for certain very important features.

1. The name of the bank was printed on the face of the note.
2. The Treasury Seal and serial numbers were printed in brown.
3. The signatures of the bank's Cashier and President appeared at the bottom of the note, while the U.S. Treasury signatures were placed at the top.

Today, these fascinating and seldom-seen National Bank Notes are eagerly sought by collectors, especially since they are still legal tender and fully redeemable at face value.

Recently, we obtained a small *Uncirculated* group of $20.00 National Bank Notes issued by the First-McKeen National Bank and Trust Company of Terre Haute, Indiana. In addition to their unusually choice quality, these notes also feature a *very low charter number* — 47. This small number indicates this bank was one of the first of over 14,000 banks to be Federally chartered — an event which took place in 1863. But even more exciting are the *low serial numbers;* each and every note available in this offer will have a serial number between 001001 and 001020. Compare these *right now* with any note you may have in your wallet or purse, and you will immediately appreciate just how small these serial numbers really are!

The entire field of paper money collecting is increasing in popularity. Many collectors are concentrating on choice notes like those contained in this offer, causing added pressure on the already small supply. Because of this demand, we expect to receive a large number of orders for the few notes we have in stock. To be certain you receive *your* note, order TODAY!

1929 $20.00 Terre Haute National Bank Note, Uncirculated **$67.50**

LOWEST PRINTING IN 40 YEARS!

Long considered to be among the most attractive of all United States airmail stamps, the three-piece Trans-Pacific set has become extremely popular with collectors and investors. Issued primarily to pay postage on mail transported by the Trans-Pacific airmail service, each stamp features the famous *China Clipper*, workhorse of this airmail service. The values of the three stamps comprising this set are twenty cents, twenty-five cents, and fifty cents. The fifty cent stamp has the lowest reported printing of any United States airmail stamp within the last forty years!

We have been fortunate to secure a very small quantity of this popular set in mint, never hinged condition — post office fresh! These sets are difficult to locate in such premium condition and we expect a very heavy response to this offer. Order today.

STAMPS WITH PROVEN COLLECTOR VALUE!

Perfect for the growing stamp collector, Paramount Philatelics has assembled a special United States stamp collection containing only quality commemorative and airmail stamps in the finest condition. None of the stamps have ever been hinged, and all are as bright and fresh as the day they were printed. Of special importance is the fact that this collection will not include any recently issued stamps. It will only include stamps with *proven collector value.* Better still, we are offering this outstanding collection for *below* its catalogue value!

Because of the pristine, never hinged quality of the stamps comprising this collection, a specially designed album will be included so that every stamp in this offer may be displayed without the aid of stamp hinges or mounts. This is very important since collector, dealer and investor demand is strongest for mint (unused) stamps which have never been hinged.

Total Scott Catalogue value of the stamps contained in this collection will be *at least $75.* But while quantities remain, this specially assembled collection is available for just $69.50, and the album will be included at *no additional cost!* And don't forget, the stamps you will receive are in choice mint condition — nicely centered and never hinged. That, alone, guarantees the desirability of this collection. Place your order today.

Stamp Collection With Album, Mint, Never Hinged **$69.50**

A Territorial Commemorative
FOR THE BADGER STATE

Only 25,015 Wisconsin Territorial Centennial Commemorative Half Dollars were issued in 1936 to celebrate the 100th anniversary of the establishment of the Territory of Wisconsin. With its low mintage and attractive design, this coin has become extremely popular with collectors. This coin features a badger, the state animal, on the obverse. An arm holding a pick over a mound of lead ore is depicted on the reverse. This is symbolic of the lead mines in the southwestern part of the state which contributed to the formation of the Wisconsin Territory.

It is no secret that United States commemoratives have become very popular in recent years. This popularity has been reflected in higher prices and the Wisconsin commemorative is no exception. The few available choice mint state specimens are slowly disappearing from the market.

If you have any intention of acquiring this coin, *now is the time!* We currently have a few Mint State 65 specimens available for only $125 apiece. The available supply keeps getting smaller and smaller, so order NOW!

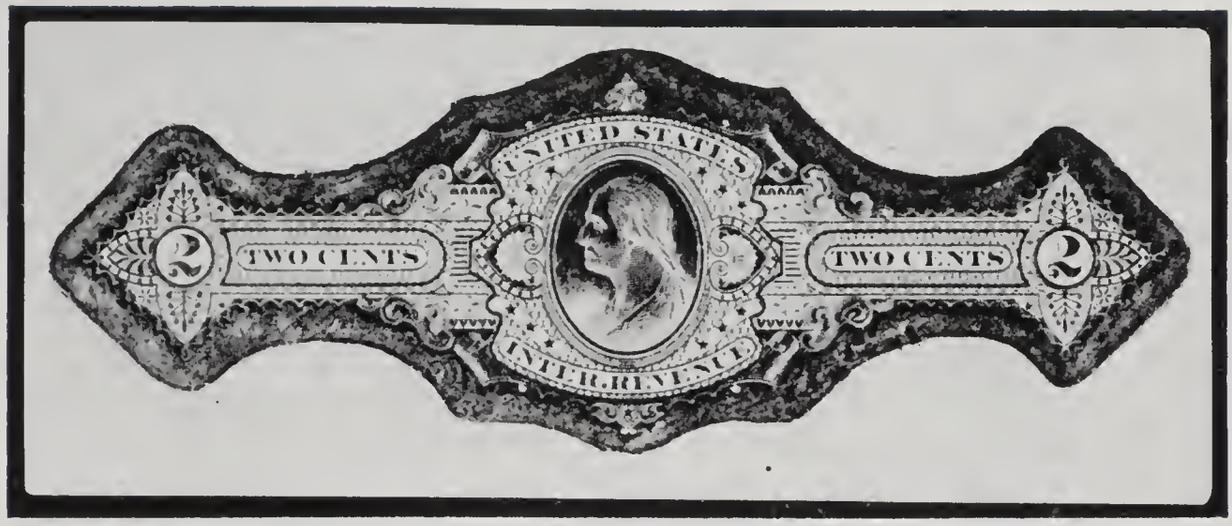
An Investor's Dream . . .



United States stamp essays are proposed designs of stamps that were never accepted. Their status is identical to that of pattern coins except for one big difference — United States essays are *hot!* Choice examples of these scarce essays are constantly rising in value. Some stamp experts even insist this increased demand is just the beginning! Quantities are *always* very limited. But despite this tremendous potential, essays can still be obtained for much less than what a comparable pattern coin would bring!

One of the items we offered at our Spring auction sale was a 2¢ blue Internal Revenue essay. With auction sales of $200 and more for inferior examples, our choice essay quickly realized $450 after spirited bidding! Immediately after this sale, we were approached by a gentleman who owned a small quantity of this scarce essay — each as nice as the one in our auction. Instead of consigning them to our next auction, he wished to sell outright and a purchase price was quickly agreed upon. We were very fortunate to acquire this outstanding group and have decided to spread our good fortune to our many customers. You may now take immediate advantage of this purchase by adding one of these scarce and beautiful essays to your collection for only $295!

Each essay consists of an engraved die impression printed on heavy card and surrounded by a wide embossed border. *Only 250* of these rare and unbelievably beautiful essays were printed in the early 1870's and each is individually serial numbered on the reverse. Undoubtedly, many have either been damaged or destroyed in the 100+ years since they were printed, and the actual number of choice essays currently available, including the ones we are now offering, is obviously much less.

Take advantage of this opportunity to own a great rarity in a growing field — and at a reasonable price! Order today.

THE GOLDEN GATE SPECIAL

Paramount's Golden Gate Special is here! This offer brings you the chance to purchase ten different *government sealed* proof sets from the famous San Francisco Mint for one low price. The ten sets included in this offer are:

1968	1970	1972	1974	1976
1969	1971	1973	1975	1977

Proof sets are very popular with collectors and noncollectors alike because of the glistening, mirrorlike surfaces of the coins they contain and of the striking quality evident in each and every set. No finer or more impressive example of United States coinage can be found!

The ten years represented in this *Special* are the first years the San Francisco Mint ever officially issued proof sets. Forty-three (43) of the coins contained in these sets were issued only in proof. None were ever placed into circulation. The only way millions of collectors can fill the empty proof-only holes in their albums is by purchasing proof coins — the very same coins contained in the ten sets you may now own!

The total cost of all ten sets, if purchased individually, would be $116.50. But you can save $6.50 by taking immediate advantage of this special offer. Paramount's *Golden Gate Special* is available for only $110.00. Order yours — NOW!

Scarce 1902-S Morgan Silver Dollar

What could be better for the serious investor or collector than a beautiful Mint State 65 Morgan silver dollar which has been ranked as "superb investment material" by a noted silver dollar expert?

Included in the Redfield collection were an extremely small number of 1902-S Morgan silver dollars. Of these, most would grade Mint State 60 or "average uncirculated". But there were a few which graded a solid Mint State 65, and we are offering these superior pieces to YOU!

Jim Osbon, in his heralded book *Silver Dollar Encyclopedia*, was lavish in praise for the 1902-S dollar. He ranked this coin tenth in Investment Ranking and stated that "rounding out the Top Ten Morgan dollars, the 1902-S coin is superb investment material." He further said that the 1902-S dollar . . . "is a quality issue and should be included in the investor's portfolio." What better recommendation could a silver dollar receive?

Now *you* can add this highly rated silver dollar to your collection! We have a very few Mint State 65 specimens of this coin in stock, so order soon. Considering what this coin has going for it, we expect to be "sold out" very quickly. And — don't forget Paramount's exclusive Six-Month return privilege. Only Paramount can make such an offer, and only Paramount has the conservative grading which allows us to say "Your satisfaction is guaranteed." Order today.

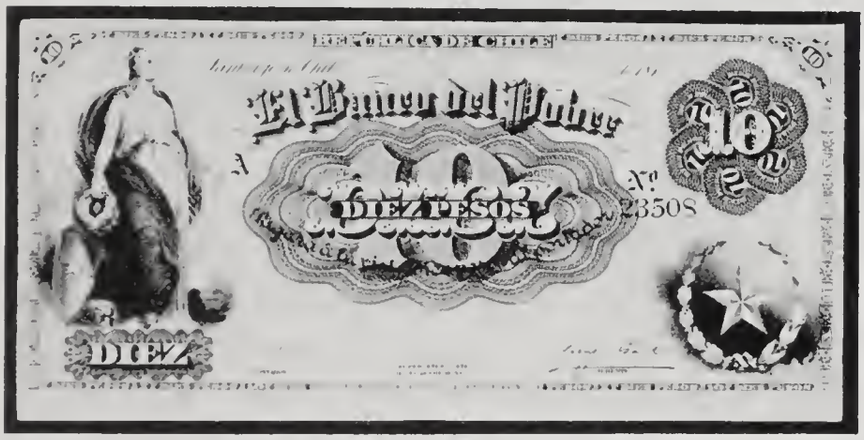
Act Today And Save $50!

As a special to introduce the exciting Buffalo nickel series to our many customers, Paramount has reduced for *this month only*, the price of the scarce 1923-S nickel in Mint State 60 by $50! That's correct! If you place your order before July 1, 1978, you may purchase this key date coin, not for its regular price of $225, but for only $175! Even though these coins exhibit the typical weakness associated with this date, each and every one is strictly mint state. (Fully struck 1923-S nickels sell for around $600!)

Remember — this unbelievable offer is good only until July 1, 1978, or while our supply lasts, whichever comes first. Be certain you place your order in the mail as soon as possible. Just four specimens are available, and they are bound to go fast!

1923-S Buffalo Nickel, Mint State 60, Weak Strike, Just **$175.00**



GORGEOUS AND "MUY RAROS"

"Gorgeous" — the only possible word which accurately describes the three different 100-year-old Chilean Banco del Pobre notes that you may now add to your collection. The obverse of each richly engraved note is exquisitely printed in black and brown, while the ornately designed reverse is in green. So striking are these notes that their beauty and high artistic quality are immediately evident to even the most casual observer!

The Banco del Pobre, located in Santiago, Chile, issued a limited amount of currency in the mid 1870's. According to the 1973 edition of *El Billete Chileno Catalogo* (The Bills of Chile Catalogue) by Jose Galetovic M. and Hector R. Benavides T., notes from this bank are "muy raros" — very rare. Despite this, we have been able to locate a very small quantity of unissued 1, 5, and 10 peso Banco del Pobre notes in crisp AU-UNC condition. While they last, we are making all three notes available for just $64.50 — a remarkably reasonable price, especially when realizing the 10 peso note is *unlisted*. Only the 1 and 5 peso notes are included in *El Billete Chileno Catalogo!*

Order your three-piece Banco del Pobre note set today! With the increasing popularity of foreign currency, these notes may not last!

A COMPLETE 97-PIECE MORGAN DOLLAR SET FOR AN AVERAGE COST OF ONLY $23.20 PER COIN!

That's right! For $2250 ($23.20 per coin) you may own a complete set of Morgan Dollars, *in albums,* in Very Good to Mint State! Included are all dates and mints (less the excessively rare 1895-P and varieties) from 1878 to 1921. Think about it! You'll be getting the very rare 1893-S which alone sells for over $300 in Very Good. Other rare dates like the 1889-CC, 1894, 1895-O, 1895-S, 1899, 1903-O, all the "CC" dates, etc., are also included.

We have recently seen *minimum* quality sets (Good-Very Good) trading for $1500 on the wholesale market. Our sets are far superior with most coins grading Fine, VF, EF and *even Mint State! None will grade less than Very Good.*

The Morgan Dollar is *the most popularly collected series of U.S. coins.* This popularity is responsible for the dramatic increase in value these coins have seen in the last few years. While no one can predict the future, activity at recent coin shows indicates the Morgan Dollar's popularity is continuing at an all-time high. And of the hundreds of thousands of silver dollar collectors, only a small number will ever be able to claim that they own the 97-piece set.

Remember:

- The average cost per coin is $23.20 (Common date circs sell for $6.00 or more!)
- All 97 coins are in albums!
- These are not minimum grade sets where most of the coins are only Good to Very Good. The set will average VF!

Your satisfaction is guaranteed! Call our Rare Coin Department *Collect* to reserve your set!

A "Music Box" Stamp for Collectors

Essay stamps are to Philatelists as pattern coins are to Numismatists. Both represent experimental designs. Both were produced in extremely limited numbers. And neither were released for the public's use. But pattern coins often sell for hundreds of dollars (sometimes *much* more), while many essay stamps can still be purchased for reasonable prices. But this difference will not last forever. Essay stamps are increasing in popularity and prices are rising!

Paramount is proud to offer the extremely scarce and popular "Music Box" grill essay with points down. To produce this grill, a cylinder with small pin holes was rolled over the stamps. The points slightly puncture the paper, making the stamp more absorbent of the postal cancellation. That way, it would be more difficult to erase the cancellation in order to reuse the stamp. In retrospect, the Post Office was overly concerned about citizens trying to erase postal cancellations, and the costly grilling experiments were discontinued after a short time.

The "Music Box" grill essay we offer has the points down, meaning the grill cylinder was rolled over the obverse side of the stamp. This variety is much scarcer than the points up variety. Each stamp we offer is post office fresh and never hinged — the utmost in condition. As always with a grilled stamp, a few perforations will be irregular — the grill points weaken the perfs. But this is normal, and does not detract from the scarcity, desirability, or potential of this essay.

Order today to be sure of adding this extremely scarce "Music Box" grill essay to your collection or portfolio. Remember, pattern coins once sold for under $100. Today, they often sell for hundreds of dollars (and more!). Mail your order today.

1935-A Experimental Silver Certificates

These experimental notes have either a red "R" or "S" printed on the obverse. They were issued to test the type of paper used in their printing. In VG-F condition, these notes catalogue in the O'Donnell catalogue for $25 each. While our small quantity remains, you may purchase one of these notes in VG or better condition for just $16.50. PLAN AHEAD

You have probably already seen the above sign, or ones similar. Undoubtedly, it at least caused you to smile, and perhaps laugh. As long as it remains just a sign, it is harmless. Unfortunately, it all too well describes the "investment portfolios" of many stamp, coin, and currency investors. And when it does, it becomes no laughing matter.

Your financial future deserves sound planning. It requires knowledge of today's market. It also requires the vision to see what the market may be when you decide to sell, whether it is five, ten, or twenty years from now. This type of knowledge and vision is not easily obtained. It requires years of experience and dedication. It requires the professionals at Paramount.

Thousands have turned to Paramount for advice and guidance in the construction of their investment portfolios. They know that Paramount, the world's largest international coin dealer, is a leader in the Rare Coin, Stamp, and Currency industry. They know the dedicated *Paramount Professionals* include leading experts and are backed by years of experience. Paramount maintains one of the largest inventories of quality investment material imaginable. Paramount also has an outstanding library to enable our professionals to conduct the research so essential in today's investment counseling. It is only logical that so many people have chosen Paramount as the *one* dealer with whom they have trust and faith. And now, the *Paramount Professionals* would like to put their knowledge and experience to work for YOU!

We have available investment portfolios for $1000, $2500,$5000, $10,000 and $25,000. Each is individually assembled, containing only *quality investment material.* None will contain damaged, or otherwise undesirable pieces. Further, the combined individual price of the items in any portfolio will be more than the single portfolio price. Simply decide whether you wish to invest in United States coins, stamps, or currency. Then, select and complete the appropriate order form on the following page.

A United States Rare Coin investment portfolio will contain an assortment of quality coins which may include half cents through $20 gold pieces. The minimum grade, except for gold, of any coin in any lot will be Mint State 60. The minimum grade of any gold coin will be EF-45. Proof coins may also be included in some portfolios.

Each Rare Stamp portfolio will contain mint or unused stamps, generally those before 1930. Plate proofs, special deliveries, airmails, and similar United States issues may be included. It must be stressed that only choice quality stamps will be used to form each portfolio.

Every United States Paper Money portfolio will contain only crisp, Uncirculated notes. Depending upon which portfolio is chosen, you will receive early Charter notes, large size notes, or early small size notes. Multiples may be included, but only when we feel the note has a *sound investment possibility.*

If you have any preference as to how you would like *your* portfolio structured, please let us know. If possible, we will arrange your portfolio to meet your request. But no matter which portfolio you choose, we are certain you will be pleased.

The Spanish Trail:
A Monument to Human Endurance

Hostile Indians, swamps, starvation and slavery — a few of the many hardships endured by Cabeza de Vaca on his expedition from Florida to Texas. After failing to find "gold and riches", de Vaca and his troops headed west for the Spanish colonies in Mexico. But a hostile environment and poor preparation took the lives of all but four of the original landing party.

Minted exclusively in 1935, the Spanish Trail half dollar boasts a low mintage of only 10,008 and stands as a lasting tribute to the trek of Cabeza de Vaca. And they are ever so popular with collectors! Just five years ago an Uncirculated Spanish Trail half dollar sold for $250. Today its price has more than doubled, and choice coins are harder than ever to find!

Take this opportunity to add a Mint State 65 Spanish Trail commemorative half dollar to your collection. Our quality is tops, our price is right and we can deliver! Remember, your VISA (BankAmericard) or Master Charge are always welcome at Paramount. Send for your Spanish Trail half dollar today.

Paramount is offering YOU the opportunity to be a proud owner of a *complete* set of Peace dollars — at a *down-to-earth price!* Each set is composed of a Peace dollar of *every date* and *every mintmark* issued from 1921 through 1935.

If so, then you will be happy to learn that we have several well-struck 1931 Mercury dimes in stock which are so beautiful, you will insist upon adding one to your collection. ON OVER ½ TROY OUNCE OF PURE GOLD

In 1973 the Bank of the Republic of Colombia marked its 50th Anniversary by issuing a commemorative gold coin with one of the most unusual designs in the nation's history. And its precious metal content is equally as rare – *over ½ Troy ounce of pure gold.*

After offering the 1500 Peso gold coin in Brilliant Uncirculated condition, we were forced to send dozens of "Sold Out" notices . . . THESE COINS ARE POPULAR FOR THEIR GOLD CONTENT AND FOR THEIR NUMISMATIC VALUE! This month, we proudly offer the *Proof* 1973 Colombia 1500 Peso gold coin at a special savings of $60 per coin! Our everyday low price of $250 is now reduced to an unbelievably low $190.

The 1500 Peso coin broke the centuries-long tradition of featuring Simon Bolivar on every Colombian coin. Instead, a rare archaeological treasure – a slender gold urn which dates to the pre-Colombian era – is portrayed. Take this opportunity to possess the Proof coin that broke tradition and contains .553 Troy ounces of pure gold!

Hurry – a coin with over ½ Troy ounce of pure gold, a mintage of only 5,000 and a specially reduced price will not remain in our inventory for very long. To be sure of possessing this Proof gold coin – mail your order today.

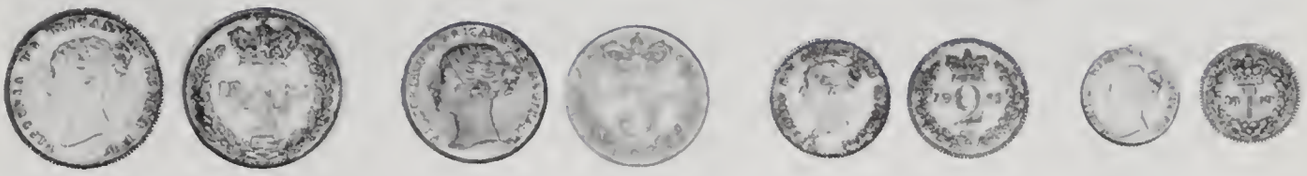
Now You May Own A Gift Of Royalty!



Each year, as an act of Royal charity, the British King or Queen distributes a special, limited mintage four-coin silver set to a select group of royal subjects. Known as Maundy sets (because they are given on the religious holiday of Maundy Thursday), each contains a silver 1, 2, 3, and 4 penny piece.

Mintages of Maundy sets are *always* quite low, often just four or five thousand. Because of this, and the centuries of English tradition behind the Maundy ceremony, these sets are extremely popular with collectors the world over.

Some of the most popular of all Maundy sets are those featuring the portrait of Queen Victoria. Because of her long reign (over sixty years), Maundy sets of Victoria come with either a Young Head (1838-1887), Jubilee Head (1888-1892), or Old Head design (1893-1901). Now, Paramount is pleased to offer you the opportunity to acquire a beautiful mint state four-piece Maundy set of what is considered to be the most popular of all three Victoria designs — the beautiful Young Head portrait!

Just look at the photos accompanying this offer and you can immediately see the classical grace of the Young Head design. Its elegance has endured for over 100 years!

We currently have eighteen different MS-60 Victoria Young Head Maundy sets in stock. The largest mintage of *any* is just 4,488! In view of their mintage, popularity, and beauty, our price of just $82.50 already seems remarkable. But now you may save an additional $10 by purchasing two of these lovely silver Maundy sets for just $155!

1936 LONG ISLAND

Designed by Howard Weinman, son of A.A. Weinman (designer of the Walking Liberty half dollar and the Mercury dime), the 1936 Long Island commemorative half dollar stands as a lasting tribute to the first settlement on Long Island by Dutch colonists. The obverse features the conjoined busts of a Dutch settler and an Indian, while the reverse shows a Dutch sailing vessel in full sail.

This coin received widespread distribution. As a result, many specimens show evidence of mishandling or circulation. The coins we offer are *strictly mint state*. With a 186% increase in Red Book value over the past ten years, an early order is recommended.

Falkland Islands Special

Act Now and Save 10%!

The Falkland Islands are located in the South Atlantic, 300 miles east of the Strait of Magellan. This island nation is a member of the British Commonwealth and, according to the latest (1973) figures, has a population of only 1,874 people.

Recently, we received a small number (just thirteen pieces) of the colorful 1960 Falkland Islands 5 Pound note from our London office. These notes are approximately 146 mm X 92 mm in size and are red and green in color. But, what makes them extra special is their choice condition — *each and every note is Crisp Uncirculated!*

Because of the small population, very few Falkland Islands notes are ever printed. That, plus the islands' isolated location means few notes ever find their way into the hands of collectors, and the ones that do are usually well circulated. Strictly uncirculated early Falkland Islands, such as these, are seldom seen!

In the latest edition of Pick's *Standard Catalogue of World Paper Money,* these Falkland Islands 5 Pound notes catalogue for $60 in uncirculated condition. But for this month only, we are offering this same note at *10% off its catalogue value!* That's right! Until June 30, 1978, or while our small supply lasts (whichever comes first), you may purchase a 1960 Falkland Islands 5 Pound note in crisp uncirculated condition — not for its $60 catalogue value — but for only $54! But hurry! Don't let this opportunity pass. Order today!

UNDERRATED AND RARE!

In 1904, the minting of silver dollars was halted for seventeen years. In that year, though, one of the key dates of the Morgan dollar series was produced — the 1904-S. Now *you* have the opportunity to be among the few to ever own a Mint State 65 specimen of this key date coin!

We have been extremely fortunate to locate a very small number of 1904-S dollars in beautiful MS-65. Their natural attractiveness is further enhanced by their scarcity in this highly desirable condition. The small number of 1904-S dollars found in high grade indicates the majority entered circulation. Some numismatic writers even consider this coin to be rarer in MS-65 than the more expensive 1903-S — a coin whose current *wholesale* value is almost twice what we are asking for the 1904-S!

Key date and high quality combine to bring you a coin worthy of the finest collection. Do not delay, or you may miss this outstanding opportunity! Order your 1904-S Mint State 65 Morgan dollar today!

From the Golden Gate--

The 1915-S Pan-Pac Commemorative

One of the greatest events of the Twentieth Century was the completion of the Panama Canal. To celebrate the canal's opening, an exposition was held in 1915 at the Golden Gate on San Francisco Bay. In commemoration of this exposition, the beautiful Panama-Pacific half dollar was issued. Featuring a standing figure of Liberty on the obverse and a spread eagle on the reverse, this commemorative coin has attracted a large number of collectors because it was:

A. Designed by Charles E. Barber, who was also responsible for the Liberty nickel; Barber dime, quarter and half dollar; Isabella quarter; Lafayette dollar, and many additional coins.
B. The first commemorative to bear the motto "In God We Trust".
C. The first commemorative coin struck at the San Francisco Mint.
D. The first commemorative to bear "E Pluribus Unum".
E. Minted in a limited quantity — just 27,134 net pieces.

Thanks to a recent purchase, we are able to offer the beautiful 1915-S Panama-Pacific Exposition half dollar in Mint State 65 for $595. With the popularity of United States commemoratives increasing, we suggest you place your order as soon as possible. Our small supply almost certainly guarantees a sellout. Order now.

One of the Most Beautiful Notes . . . EVER!

One of the most popular of all United States notes is the beautiful $10.00 "Bison". Its design is among the favorites of all notes issued during the early years of this century — a time when an artist's pride and skill was important. This old-time care is immediately evident as everyone is instantly struck by the note's beauty. Now, *you* have the opportunity to add an outstanding crisp Uncirculated example of this important note to your collection.

The four Bison notes we are offering form a cut sheet we recently purchased. They have been kept together since the day they were printed and are strictly *Uncirculated.* In today's rising market, choice notes such as these are seldom seen. Knowing the potential of this type of material, whenever such a note does become available, it quickly disappears into a collector's or investor's portfolio!

The Bison note features "Black Diamond", a bison in the New York Zoological Gardens who also was the model for the Buffalo nickel. The famous explorers Meriwether Lewis and William Clark (Lewis and Clark) are shown at either side of Black Diamond. The reverse portrays a personification of Columbia standing between two pillars. Once seen, the beauty of this note will remain with you!

We can only fill the first four orders we receive for this outstanding item. Be certain your order is one of the first. Order today.

United States Gold Commemoratives

While most collectors are aware the United States issued silver commemoratives, many are surprised when informed the United States also issued commemorative coins struck in gold! These gold commemoratives were issued between 1903 and 1926 and form one of the most interesting of all U.S. series.

As a result of their low mintages (all but one has a mintage *under* 18,000) and popularity, gold commemoratives were widely distributed and many became the property of people who were not collectors. Therefore, quite a few of these coins were mishandled and can no longer be considered mint state. Because of this, choice mint state examples are difficult to locate.

Paramount maintains one of the largest inventories of mint state gold commemoratives in the United States. We are certain you will be pleased with our conservative grading and prompt, efficient service. Start your United States gold commemorative collection today!

"WHAT'S WRONG WITH THIS SILVER CERTIFICATE?"

We have a lot of fun asking people this question, because although something is indeed very much wrong with this note, most people don't recognize it immediately. That's probably how it escaped the watchful eye of the Bureau of Engraving and Printing (BEP) in Washington, D.C.

Spot the error yet? Look at the serial numbers. The lower left one begins with U370, while the upper right begins with U470 – mismatched serial numbers!

No question about it! Genuine error notes such as this one are truly rare. A recent study by the BEP indicated that the percentage of errors that actually escape detection and reach the public is less than 1 in 100 million! And with the BEP now experimenting with laser beam currency inspection equipment, all currency errors will one day become extremely rare!

You'll enjoy owning this fascinating note, especially when you show it to friends, family and business associates, because it is always a source of surprise and amazement. Best of all, this error is in crisp, Uncirculated condition, *the finest you can obtain.* You can even acquire a pair of consecutively mismatched numbers at special savings! Avoid delay – place your order now.

Scott #315

You now have the chance to add to your collection or investment portfolio, one of the great rarities of all Twentieth Century United States stamps — Scott #315! This is the famous 5¢ blue imperforate Lincoln issue of May 30, 1908. According to the classic reference work by Johl, *The United States Postage Stamps of the 20th Century*, only 4,000 imperforate stamps are thought to have survived out of a total printing of 13,500. The remainder were privately perforated for use in vending machines. Today, mint imperforate copies are rare and seldom appear on the philatelic market.

At a major New York auction, Paramount acquired one of the largest blocks of Scott #315 to appear in recent years. This magnificent block of eighty-one is Mint and Never Hinged — post office fresh in every sense of the word! From this block, we are now making available to our many customers, mint pairs, blocks of four, and plate blocks of six.

There is no way to accurately measure the true scarcity of Scott #315. Many fine collections exist without a copy of this scarce stamp. With mint, never hinged turn-of-the-century United States stamps bringing record prices seemingly every time they appear, NOW is the time to acquire *your* example of this highly desirable Twentieth Century rarity! Finer copies cannot exist!

Hurry! Once these stamps have been sold, we doubt if we will ever again be in the position to make such a spectacular offer. This is truly a *once-in-a-lifetime* opportunity for the advanced collector or investor. Call COLLECT to confirm *your* Scott #315!

29-Piece Canadian Silver Dollar Collection

Canadian silver dollars are well known for their attractive designs and very low mintages. Struck between 1935 and 1967, with the exception of the war years 1940 through 1944, these *80% solid silver* coins have been growing in popularity with collectors and investors throughout the United States. Now you can enjoy the pleasure of collecting these beautiful silver coins!

We have assembled several sets containing twenty-nine different Mint State 65 Canadian silver dollars issued from 1935 through 1967. Six of the dollars are "only-year-of-issue" commemoratives. Several dates, especially those before 1950, are very difficult to locate in mint state. But what attracts many people to this beautiful series are the *low mintages.* Just take a look at the mintage figures of the twenty-nine dollars contained in each set!

A major concern when building a Canadian silver dollar collection is *condition.* In assembling this impressive twenty-nine piece set, we have *hand-selected* each coin for its quality and brilliance. *Only Mint State 65 coins will be included!* This is very important because the Canadian silver dollar market is showing signs of strong activity. Also, a major new reference work concerning these dollars has just been released. In addition, recent gains experienced by mint state Morgan and Peace dollars have attracted potential investors to the numismatic market. Naturally, large, attractive silver coins with low mintages, like many of the Canadian dollars included in this twenty-nine piece set, would be very appealing to these investors.

If you are part of a growing number of collectors with an eye to the future who appreciate beauty as well as quality, then this Canadian silver dollar collection is for you!

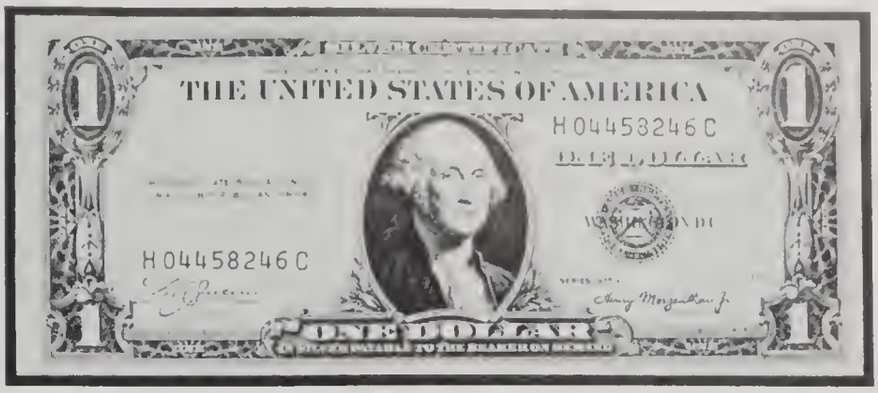
LAST CALL AT THIS PRICE



In World War II, Germany counterfeited perfect English 5 Pound notes which they dropped over England in hopes of wrecking the British economy. Because of this, the U.S. War Department ordered printed special United States paper money for use by U.S. forces in North Africa. These notes are exactly the same as the then common 1935-A silver certificate except they have a *bright yellow seal.* If large amounts ever fell into enemy hands, these distinctive notes could easily be identified and declared worthless. Fortunately, the Allied invasion of North Africa succeeded and today, North African invasion notes are still legal tender and fully redeemable at their face value.

North African invasion notes are rarely encountered. That, plus the growing demand for these attractive notes has placed strong pressure on the available supply. Because of this, we will be forced to raise our price on what few specimens we have.

But — we have decided to allow our many customers one more opportunity to purchase a crisp, Uncirculated specimen at the old price! That's right! Until July 1, 1978, you may purchase one of these desirable notes for just $42.50! But hurry, because . . . .

The 1923-S Peace Dollar:

OVERLOOKED, UNDERVALUED, AND RISING!

You know that silver dollars are rising in value. But did you know that the 1923-S Peace dollar has been among the leaders? In 1973, it catalogued in "Unc" for $8.25. Today, it sells (rapidly) for many times that value. And they are now more difficult to locate in Mint State than ever before! Astute collectors and investors are wisely adding the 1923-S Peace dollar to their collection or portfolio.

Our chief coin buyer hand-selected twenty 1923-S Peace dollars at a recent convention. The quality he demanded — and received — is what many dealers would call "Choice" or "Gem". While these are noticeably superior specimens to those usually encountered, they do not quite meet our exacting standards for MS-65. For those of you who would like to add an extremely attractive and lustrous 1923-S dollar to your collection, but without paying the price MS-65 specimens command, then *these dollars are for you!*

Order your 1923-S MS-60+ Peace dollar today. The demand is strong and the price is right!

UNITED STATES PROOF SETS

Paramount maintains an extensive inventory of modern (1936-1977) United States proof sets. The sets we offer are *choice* and have been *hand-selected* for quality. Sets which are heavily spotted and discolored (which is common) are rejected. This assures you of receiving the best quality possible.

-1964- A Very Important Year

1964 — a very important year for numismatics because it was the first year of issue for the Kennedy half dollar and the only year this coin was made of 90% silver. *The only year!*

We have located several twenty-piece rolls of this popular half dollar in brilliant *proof* condition. These low mintage, mirror-surface coins are exquisite. Less than 4 million 1964 proof Kennedys were struck. *This represents only 1% of the entire 1964 half dollar mintage!* Compare this mintage with that of other desirable United States coins, and you can see why we are suggesting you order soon. Previous offerings of this popular coin have resulted in sold-outs, so make certain you place your order early!

THE DOOMED DOLLAR

We may be witnessing a very important numismatic occurrence in the near future — the end of the Eisenhower dollar. If true, then a glorious era of numismatic history which began in 1794 with the issuance of the first dollar will come to an abrupt end.

Congress is planning to closely examine the entire coinage system of the United States in early 1978. There is a strong belief in the numismatic fraternity that the Eisenhower dollar will be replaced with a smaller circulating dollar. If this happens, then the Eisenhower dollar could easily become a very popular item!

The Eisenhower dollar set we are offering consists of 26 coins — one of every date and every mintmark including all *silver* and *proof* issues from 1971 through the Bicentennial year of 1976. Although this set covers just six short years (1971-1976), several desirable and low mintage coins are included. As a matter of fact, sixteen (16) of the dollars included in this set were never issued for circulation! The *total* mintage of these sixteen coins is *less* than one third of those struck for circulation in just one year, 1972!

The twenty-six coins comprising the 1971-1976 set we are offering are shown. Their mintage figures are in parentheses.

The U.S. Double Eagle -- Numismatic Value and Gold Galore!

Liberty Head Design

Saint-Gaudens Design

The Double Eagle ($20 gold piece) features two advantages for collectors. First, it contains almost one ounce of pure gold — a hefty hedge in these days of high inflation. Second, it is a collector's coin — selling for the value of the gold content PLUS a numismatic premium. Astute collectors and investors know that Double Eagles can increase in value two ways: the price of gold may appreciate OR the collector premium may increase. Imagine the results if the price of gold went up AND the collector premium rose!

Add a beautiful and prestigious Double Eagle to your collection now. Select the Liberty Head or the Saint-Gaudens in Mint State 60 or Mint State 65. Remember, YOUR SATISFACTION IS GUARANTEED AT PARAMOUNT. Order with confidence.

Silver Coins from Latvia
A 3-PIECE SILVER TYPE SET

One of the most popular fields of world coin collecting is the coinage of countries which no longer exist. There are many such countries: Bohemia, Croatia and Montenegro are just three examples. But among collectors, perhaps one of the best known and most popular is LATVIA.

Latvia, now part of the Soviet Union, borders the Baltic Sea in northeastern Europe. It was an autonomous country during the 1920's and 1930's, and produced several coins of outstanding beauty. These extremely attractive coins are a favorite among world coin collectors and are eagerly acquired whenever located.

We have acquired a small quantity of all three denominations of Latvian silver coins — the only silver coins ever issued by the Baltic country — and offer them here. Each set is packaged in a specially designed custom hard plastic holder. The three attractive silver type coins included in this set are:

- 1 Lats (23 mm), issued for one year
- 2 Lati (26 mm), issued for two years
- 5 Lati (36 mm), issued for three years

All three coins will grade *Very Fine* or better and feature the Latvian Coat of Arms. The obverse of the 5 Lati coin shows the profile of a young female, symbolic of Latvia. The reverse of the other two coins shows the date and denomination surrounded by a wreath. Each coin in this set will be at least forty-five years old.

Who knows how many silver Latvian coins are left for today's collector? Probably not very many have survived the Second World War or the melting pot. And the original mintages were already unusually small to begin with! For these reasons, we know you would like to add this historic silver set to your collection. Order your set — *today!* Our supply is *very limited.*

BACK AGAIN! The 1878 Type III Morgan Dollar

The 1878 7 Tail Feather dollar with round breast (Type III) is again available after a lengthy wait! As you know, the Type III dollar is easily recognized by the slanted top arrow feathers and the round eagle's breast. If you waited too long to order last time, do not hesitate to mail your order.

Here is what Wayne Miller says in his book, *An Analysis of Morgan And Peace Dollars:* "The 1878 7 tail feather round breast (Type III) dollar is much rarer in uncirculated condition than the flat breast variety. Probably less than 20% of all BU 1878 7 tail feather dollars are of the round breast type . . . in recent years, however, dollar varieties have become very popular. The price of the 1878 7 tail feather round breast dollar has begun to rise to reflect this increasing interest."

After three months of searching, we have located 31 pieces of the elusive 1878 7 tail feather round breast (Type III) dollar in Mint State 65. But we know from experience that these coins will soon be sold to astute collectors and investors. If you need a Type III 1878 Morgan dollar, fill in your order form and mail it today! Remember, all Mint State Morgan dollars sold by Paramount are covered by our exclusive Six-Month Money Back Guarantee if kept in their sonically sealed holders.

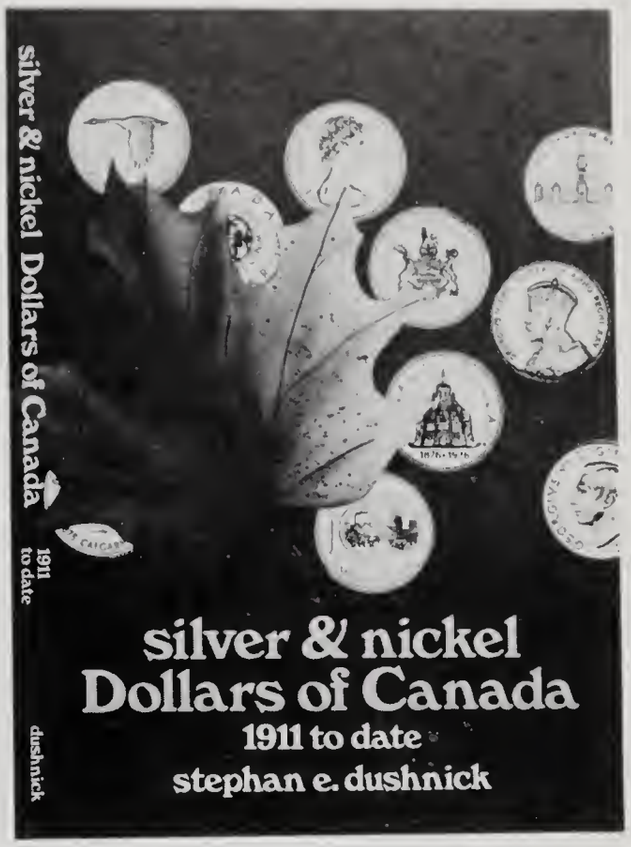
Definitive Canadian Dollar Book!



Years ago a small pamphlet was produced on Canadian silver dollars. From that time forward this was the standard reference work on the series. Now this old work has been supplanted by a long awaited book destined to be *the* definitive volume for years to come. This new work is *Silver & Nickel Dollars of Canada* by the noted numismatist Stephan E. Dushnick.

This book covers all Canadian dollars from 1911 to 1978 and includes all varieties as well as the .500 fine silver Collector's Issues produced by the Royal Canadian Mint since 1971. In addition, a photo grading guide, numismatic glossary, production and issue figures, charts, current values, and the story of the Royal Canadian Mint are included in this monumental undertaking. The photos by Dr. James A. Haxby are unsurpassed for clarity and enlargements are shown for the chief varieties such as the "Arnprior" dollars and the three types of 1947 dollars. Each coin is explored in detail and the designers and engravers are identified as well in this fascinating 171-page book. The beautiful hard cover library binding will assure you of a volume that will stand up to years of research or just leisurely reading.

Books comparable to this one in size and format have sold for $15 or more, and this volume would be well worth that price. However, the cost to you is not $15 but *only $9.50* ($10.50 in Canada)! In these inflationary times it is hard to understand how this handsome work can be so inexpensive. Do not delay, you will find this book invaluable if you collect Canadian dollars or are just interested in these coins or Canada in general. Order your copy *today!*

Scarce Silver From the Vatican

In 1939, war began in Europe, and the Vatican, surrounded by the city of Rome, elected Monsignor Pacelli as Pope Pius XII. This necessitated a new series of Vatican coins. However, the design of the new 5 Lire silver coin remained for just three years. Now you can own a Mint State 65 specimen of this limited issue coin!

Early in 1977, we offered the first year of reign 5 Lire coins, 1939, for Pope Pius XII and nearly sold out. Now we have been fortunate to locate a few Mint State 65 specimens of the equally popular *1940* 5 Lire coins. Like the 1939, the obverse shows Pope Pius XII while the reverse depicts Saint Peter, the first Pope, guiding a small boat. Both the 1939 and 1940 5 Lire coins have a mintage of just 100,000, and catalogue for $25.00 each.

While they remain, we are making available both the recently acquired 1940 5 Lire coins *and* the few remaining 1939 5 Lire coins at below catalogue — just $22.50 each. But hurry! With the increasing number of world coin collectors, these coins will probably go fast! Order your coins today!

Redfield Silver Dollars an Individual Listing

Here is a listing of Mint State 60 silver dollars from the famous Redfield Collection. These silver dollars did not meet Paramount's strict grading standards which we insist upon for our MS-65 dollars, yet many of these dollars are equal to, and even exceed, the "Gems" and "Superb BU's" offered by many other dealers. And like all mint state Morgan and Peace dollars sold by Paramount, these coins carry a full *SIX-MONTH RETURN PRIVILEGE.* Why don't you place an order today and see for yourself?

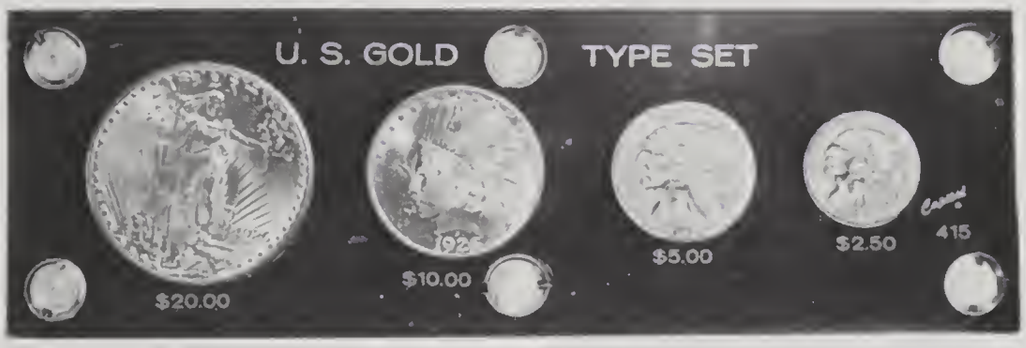
GOLD



AN ITEM OF LASTING BEAUTY

Gold — the ultimate acquisition. There is not a collector alive who would not like to see brilliant, glistening gold in their collection.

We have carefully assembled two different United States gold type sets, each containing a $2½, $5, $10, and $20 gold coin in brilliant uncirculated (Mint State 60 or better) condition. The first set will feature coins with the classic Liberty Head design. This design was used from the late 1830's into the twentieth century. The second set includes the popular $2½ and $5 gold coins with the incuse Indian Head design. (They were the only coins issued by the United States whose design was actually *below* the surface of the coin.) Also included is the $10 Indian Head gold coin and the magnificent $20 Saint-Gaudens. The Saint-Gaudens is often referred to as the most beautiful coin ever issued by the United States, and one of the most beautiful in the entire world.

Either set would make a handsome addition to any collection — an addition certain to bring enjoyment and pleasure for many years to come. Gold. You've heard so much about it. Now, it can be yours.

1936 Cleveland Commemorative

The 1936 Cleveland half dollar was issued to commemorate the Great Lakes Exposition which, in turn, commemorated the centennial of the incorporation of Cleveland, Ohio. Founding father Moses Cleaveland is on the obverse; a view of the Great Lakes is on the reverse.

Boasting a 111% gain in Red Book value over the past ten years, this coin is one of the most difficult commemoratives to locate in mint state. Because of its low relief, any scruff, slide mark, or slight handling becomes very noticeable. That is why we are certain you will be pleased with Paramount's grading. We guarantee each Cleveland commemorative to be strictly mint state. You must be satisfied! Order today.

"FABULOUS FIFTIES PROOF SET PACKAGE"

Nostalgia – the "good old days" when life was simple and easy.

Much has been written in recent years about nostalgia and the "Fabulous Fifties." But was life any better twenty years ago? Perhaps. But one thing is certain – there were not as many coin collectors as there are now! This is most quickly seen in proof set mintage figures. While proof sets issued in recent years have mintages of upwards to four million, less than one million proof sets were sold in eight of the ten years comprising the "Fabulous Fifties"!

We have put together a "Fabulous Fifties Proof Set Package" consisting of one *government sealed* proof set from each of the following four years:

1956 1957 1958 1959

Two of these sets (1956 and 1958) have mintages of under one million. Combined, these four sets have a total mintage of less than that projected for the 1978 proof set (4 million)! And unlike recent proof sets, those offered in this package contain coins made of 90% solid silver!

If you would like to add a little nostalgia to your collection, then the "Fabulous Fifties Proof Set Package" is for YOU!

SPECIAL!

The combined total price of the four government sealed proof sets in this package is $49.50. But if we receive your order *before* July 4, 1978, you may purchase these same four proof sets for only $45.95. You save $3.55!

Set B - U.S.S.R., Silver Coinage (1924-1931)

Set B covers the silver coinage of 1924-1931, and were the last silver coins issued for circulation. The 50 kopecks and one rouble feature an industrial worker, symbolic of the modern Soviet Union. The hammer and sickle dominate the reverse. Included in this five-coin silver set are:

Denomination	Silver Fineness	Diameter	Denomination	Silver Fineness	Diameter

15 Kopecks	.500	20 mm	One Rouble	.900	34 mm

LOW MINTAGE COMMEMORATIVE

This distinctive half dollar was issued for the sesquicentennial of the founding of Columbia, South Carolina. Struck at all three mints, it is the Philadelphia issue which we are now offering as a type coin.

The obverse of this commemorative features Justice with a view of the old and new state houses in the background. The state emblem, a palmetto tree, is on the reverse. Despite its low mintage and three-fold increase in Red Book value over the past ten years, the 1936 Columbia half dollar is still surprisingly inexpensive. Be certain to add this coin to your collection! Order today.

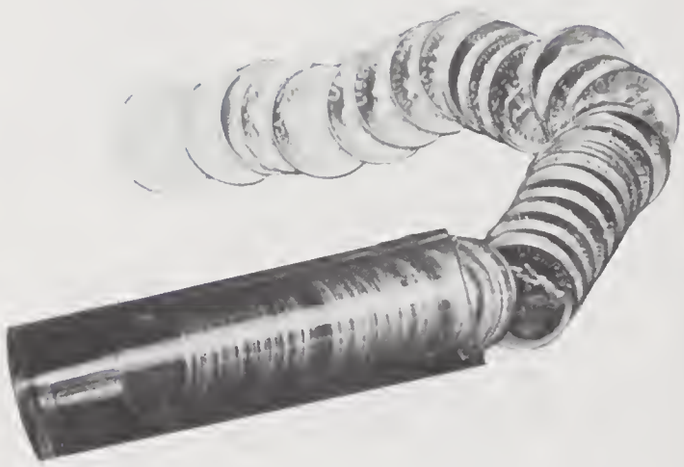
1955
A Low Mintage Year



Throughout numismatic history, certain dates have held special meaning for many coin collectors. 1955 was a special year because it not only marked the temporary closing of the San Francisco Mint, but also brought collectors several very low mintage coins.

We are pleased to offer Mint State rolls of 1955-PDS dimes whose mintages are among the lowest for regularly issued dimes in the last 35 years!

DATE	MINTAGE
1955-P	12,828,381
1955-D	13,959,000
1955-S	18,510,000

For comparison, well over *1 billion dimes* were struck in 1974 and nearly a billion in 1975 – *none of them silver!*

While supplies last, you may purchase a 1955-PDS roll set of dimes, 50 mint state coins per roll, for just $125. Single rolls are also available at the prices listed.

U.S. Type Gold-- Individual Pcs.

The most popular way to collect U.S. gold coins is to assemble a Type Set. A Type Set includes a representative example of each major design and denomination. Thus, a Type Set of Double Eagles ($20 gold pieces) will contain only two coins: A Liberty Head and a Saint-Gaudens.

The price of gold has been in the news recently and many new collectors have found that Paramount offers the widest range of grades and prices for gold coins in the numismatic world. This is only natural, as Paramount's multimillion dollar inventory and unsurpassed reputation for accurate grading and fair prices are well known to experienced collectors! When you shop at Paramount for gold coins, your satisfaction is guaranteed!

When ordering a Type coin from the list below, dates will be of our choice. If you are searching for a specific date, please write or call for prices and availability. Our Rare Coin experts are waiting to serve you.

United States Silver Commemoratives

United States silver commemorative coins include some of the most beautiful and artistic designs of any United States coinage. Their beauty and boldness of relief is admired by collectors throughout the entire world. Their mintages are consistently small, often less than 20,000 pieces, and according to the respective editions of *A Guide Book of United States Coins* (Red Book) by R. S. Yeoman, the fifty-piece commemorative type set has more than tripled in value in the last ten years. Yet, many United States commemoratives can still be purchased in mint state condition for less than $50 each.

Considering their low mintages, unique designs, and historical interest, United States silver commemoratives may certainly be a series whose future is clear.

Jesse Owens Launches Nationwide Tour

Jesse Owens, a 1936 Olympic star, will launch a nationwide tour to encourage support of amateur athletics and the 1980 Olympic stamp program, it was announced by Max J. Humbert, President and Chairman of the Board of Paramount International Coin Corporation. Mr. Humbert stated that Paramount will underwrite the cost of Owens' fifty-state tour on behalf of the Olympics.

On hand to greet Mr. Owens at the start of the nationwide tour were, in addition to Mr. Humbert, Austin Page, President of Paramount International Management Corporation, New York City, and Managing Director of the 1980 Olympic stamp program; and former U.S. Mint Director Mary Brooks, Consultant to Paramount on international numismatic and philatelic affairs.

While on nationwide tour, Owens said he hopes to increase financial support for amateur athletics by encouraging direct contributions to the U.S. Olympic Committee and the acquisition of Olympic commemorative stamps being issued by the Soviet Union for the 1980 Moscow Games. He noted that the use of stamps to defray Olympic expenses dates back to the first Olympics in 1896 in Athens.

Owens praised the 1980 Olympic stamp program for being the first to commemorate every Olympic sport. He also complimented the designs of the sports series "for the detailed accuracy of championship form, for capturing a dramatic moment in competition, and for the elimination of any nationalistic or political identification . . . in keeping with the real meaning of the Olympics and the quest for peace."

Paramount will manage the 1980 Olympic stamp program in more than one hundred nations for the Ministry of Communications of the U.S.S.R. and the Organizing Committee for the 1980 Olympic Games in Moscow. The stamps are being issued in sets of four and five, with a maximum of twelve a year. In addition, the fifteen Olympic golden cities are being commemorated with a set of stamps to be released in each of the four years of the XXII Olympiad.

Collectors in the Soviet Union may obtain Olympic stamps directly from the post office, while collectors in this country may obtain the stamps, plate blocks, sheets, and official first day covers with the special Olympic pictorial postmarks from: Olympic Stamp Program, P.O. Box 1980, Dayton, Ohio 45401. For additional information, complete and return the coupon below.
